

I have never made a purchase from a telemarketer, nor do I ever plan to. I simply do not trust them.

I run a business out of my home office. During business hours I need to concentrate my efforts on my work and have my phone line free and available to clients and prospective clients. Prior to applying to the New Jersey Do Not Call List, I received up to one unsolicited telemarketing calls an hour starting as early as 7:00am and continuing up to as late as 9:00pm. This heavily interfered in my efforts to earn a living, not to mention my private life. I thank providence for the New Jersey Do Not Call List and its' benefit to me.
